

Welcome to the Economic Integration Agreement Data Sheet!

The Economic Integration Agreement Dataset indexes the amount of trade openness, on a scale 1 to 6, between every country pair between 1950 and 2017. This dataset not only tracks trade openness over time, but also hyperlinks to a PDF document of the actual trade agreement. This allows for easy access between the dataset and the supporting document justifying the index given.

This dataset consists of six documents:

- EIA Database July 31 2021 (with links)
- EIA Database July 31 2021 (without links)
- Overview of Database July 31 2021
- Data Construction Methodology July 31 2021
- Country List July 31 2021
- PDF File Summary July 31 2021

The primary document is "EIA Database July 31 2021 (with links)" The "Overview of Database July 31 2021" PDF explains the different features of the primary documents.

After opening "EIA Database July 31 2021 (with links)", should there be a request to "Enable Content" please click on that button to enable the hyperlinks to work to access the PDF documents in the PDF Files folder.

This dataset was last updated July 31, 2021.
